

Master Selection Card Document

Rev 1.4

Updated 2021-01-26

Printing directions:

- These are size for 8.5 x 11 sheets of paper with 0.5 inch margins (on all sides).
- If you set up your printer and/or system differently, they will not print to that size.
- If your margins are set up differently, the cards will not be to exact size.
- As long as you do not change the aspect ratio of the images, the card size(s) will match in all directions.
- Target card height size is 3.4 inches, which allows entire card to fit into a sleeve w/ an actual card as it's support.
- Cut each card out, and put it into the sleeve with a real Destiny card as the backing.

If you are having difficulties getting this to print to size and/or other issues, it is likely a system-specific issue. You will need to troubleshoot it on your specific system(s).

Please enjoy!

DESTINY SMASH

for Star Wars: Destiny

This card outlines a method for playing a Destiny SMASH game using the system developed by Dice Commando and the members of Team Commando (DC Team) to enjoy the game in an alternate format of 'Limited Play'. This is a fan developed module for the game Star Wars: Destiny by Fantasy Flight Games and IP held by Disney. No copyright and/or intellectual property infringements are intended. No direct profit is made from this module.

Game Setup and Start

- 1) Make a small 'deck' out of the selected Character Cards from within this document, and shuffle
- 2) The first player draws two character cards from the deck, and then takes decks matching the contents on the character cards and shuffles them together to form a 30-card playing deck.
- 3) Each other player repeats this process.
- 4) Each player will have two battlefields; they choose one of those to bring to the game.
- 5) The two players now have teams, decks, and are ready to play a SMASH game!

DICE COMMANDO
